Subject: NOTIFICATION OF UNIT SHUTDOWNS

Toby:

In our letter of July 12th, we informed the Agency of work items for i  
that will be carried out at the Catalytic Cracking and Alkylation Unit  
shutdown scheduled for November of this year.

This note is sent to advise the Agency that Tesoro is electing to shut  
T/A interval for routine inspections and maintenance repairs at a time  
The additional shutdowns and timing are:

ROSE Unit 11/9 - 12/13

No need for ROSE CCU feed during the CCU shutdown

Inspections and repairs; no process or capacity changes.

Cat Gasoline Splitter (CGS) 11/9 - 12/13

No CCU gasoline produced during the CCU shutdown

Inspections and repairs; column trays may be replaced; no process or c

Catalytic Reformer Unit (CRU) 11/13 - 11/30

Inspections and repairs; in-kind replacements of some heat exchangers;

Hydrotreaters: DHT & CFH 11/11 - 12/2; NHT 11/12 - 12/1

No hydrogen available during CRU shutdown;

Inspections and repairs; no process or capacity changes.

Jet Fuel Treater (JFT) 12/3 - 12/13

Inspections and repairs; replacement of the charcoal bed; no process o

We will keep you informed if any of these dates should change.
